

Modular Suspended Platform (MHB 60)

✓ Professional use

- Available with end or walk-through stirrups
- Stable, strong and reliable
- Modular system, many possible configurations
- Up to 21 metres in length

MHB 60 suspended platform. The most comprehensive, modular suspended platform system

With the MHB 60, the options are endless. The suspended platform is modular, allowing multiple configurations. The lightweight material is very strong and reliable. The MHB 60 will take you to great heights, safely. It is the best system for maintenance and renovation jobs.

The smart design means that all of the individual components are easy to assemble and dismantle. The components are compact to store and easy to transport. The MHB 60 is available with end and walk-through stirrups. The end stirrups are mounted at the ends of the suspended platform and offer a maximum length of 15 metres between the stirrups. By using walk-through stirrups you can extend that length to up to 21 metres in total. Walk-through stirrups are used if the length of the entire suspended platform exceeds the length between the ropes/hoists.

Compact and easy to transport.

The suspended platform is made up of many individual components. Easy to disassemble and compact to store and transport.

Lightweight and strong

The lightweight aluminium is very strong and reliable. And takes you to great heights, safely.

Customisation possible

Would you prefer a double wide suspended platform, a suspended platform with corner sections or other specific customisation? Contact our customisation specialist to discuss the options.
